# Water Department Water Service Line Material Inventory

## WE NEED YOUR HELP!

La Porte Water Department must complete a full inventory of all Water Service Lines from the City's water main to the customer's house by October 16, 2024. This is to comply with the *Lead and Copper Rule* enforced by the EPA for every Public Water System. Our goal is to ensure safe drinking water. If we cannot identify the line material by this information request, we may be required to excavate soil on your side of the curb box to determine service line material. With your help, we'll reduce the number of door-to-door stops.

Scan the QR code with your camera app on iPhone or download a QR scanner on Android to access the survey on your mobile device

**HELP US IN**

**3**

**EASY STEPS**

1. **SCAN THE QR CODE OR VISIT:**

<https://lead-safe-laporte-colcdp.hub.arcgis.com/pages/Verify%20Update>

**OR**
